Passionate, strongly enthusiastic student willing to learn new things in the IT field. Invited to join my friend's invitation on collaborating for different projects as a visual designer, I gained experience of working in this area. Also, the time spent during the internship as a visual designer shaped my experience and gave me a full perspective of what a website is. For this reason, I am looking for a company willing to offer me a placement among their designers. I would love to be part of a team as a visual designer and I am therefore looking for a job in this area.

EDUCATION

BIS - Business Information Systems Faculty of Economics and Business Administration

10/2018 - 06/2021,

Cluj-Napoca

Courses

- Algorithms and data structures.
- Databases.
- Advanced database elements.

- Programming and development environments.

WORK EXPERIENCE

Visual Designer LogiqDesign

06/2019 - 10/2019,

Cluj-Napoca

Achievements/Tasks

- Photoshop;
- CorelDraw;
- Adobe Illustrator;
- Teamwork;
- Attention to detail.

VOLUNTEER EXPERIENCE

IMPACT Phoenix (2014 - 2018)

I activated as a volunteer in IMPACT Phoenix organization in High School, developing my team and social skills and being part of the events.

Interact (2016 - 2018)

As a volunteer, it was an experience that helped me acknowledge the importance of collaborating with people from other organizations.

Students Organization of Romanian Tourism (2018 - 2021)

The organization gave me the opportunity to be a vice-coordinator of the Human Resources department, learning how to manage a team alongside the main coordinator.

Attention to detail

PERSONAL PROJECTS

„Virtual History" Website (2017)

- I designed and built the website using HTML, CSS and JS. Also, I participated at a contest with this project, developing my skills as I worked independently on this and

PetShop (2019)

- I gained experience working on the design of a mobile application, appreciating the small details and understanding the concepts of mobile design. This application was built for a shelter so that people could see the animals that were available. I loved being part of the team and the being able to bring value to it.

Personal Website (2021)

- This is a personal website that was designed and built in order for me to expose my work (as a portfolio) so that it is a professional way to show what I've been working on. The website shows every design project and every website's layout that I built.

ACHIEVEMENTS

County Computer Science Olympiad (2014, 2015)

I qualified for the county stage twice in High School, developing my C++ skills in order to reach my better performance.
